NATURAL WHITE FILLINGS

The attributes of SANTAS DOWNYSOF are taken from nature itself. High and certified grades of Goose and Duck Down/Feather are utilized as fillings. Intended to provide uniform insulation for comfort with the minimum of weight for ideal sleep conditions, Single most important feature is the ability to sustain warmth yet absorb moisture, create breath ability thus control the temperature.

STANDARD PILLOW

Pure White Goose/Duck Down

This is the best luxury natural fill for pillows. The largest cluster of down with the greatest "fill power" for the softest feel. Soft and fluffable with adjustable support.

Natural Blend White Goose/Duck Down & Feather

This is a high grade fill combination for resiliency, regulated weight and cushioning support. Durable and naturally absorbent.

CHAMBER PILLOW

These pillows combine the attributes of Pure Down and Feather fillings layered in chambered sections to provide different comfort feel for varying conformity standards.

CUSHION PILLOW

Offered in multiple sizes in Pure or combination natural fillings for usage as bed or sofa accessories. Comfortable with cushioning support. Repluffable with long lasting durability with shape retention.

DUVET

Pure White Goose/Duck Down

Proven natural fills for duvets. Extremely soft cluster of down with superb "fill power". Light weight, soft and fluffable. Baffle stitch construction for regulated filling. Pure cotton down proof fabric covering.

Natural Blend White Goose/Duck Down & Feather

The natural blend combination provides comfort with regulated weight. Contours following body movement and durable. Natural hygroscopic.

MATTRESS OVERLAY/ FEATHER BED

A unique combination of White Goose/Duck Down and Feather for softness and resilience. Gently cushioning with amazing sleep comfort performance. Repluffable baffle stitch construction for regulated weight. Gusseted sides for superior conformity and layering.

MATTRESS OVERLAY/ FEATHER BED-PILLOW TOP

Come with added feature of Pillow Top ultra plush down comfort with resilience feather layered support. Contouring shape for restful sleep and pressure point support.

Features of
POLYESTER FILLINGS

SUPER HOLLO
A value for money product with overall functionality. The single hole high grade fibres are quality tested.

SUPER HOLLO FIBERS

DACRON®
Provide greater bulk and resiliency. Firm cushioned support is the important feature.

Dacron

QUALLOFIL®
Patented 7-hole fibres with maximum loft. Exclusive combination of extra light fibres with cradling support.

Quallofil

MICRO GEL FIBRE (MGF)
Made from 100% Micro Gel fibre (MGF) with hypo-allergenic and washability features. Unique gel coated fibres feel like super fine down clusters. Provide excellent shape retention and thus added comfort.

Micro Gel

HOLLOFIL®
Give superb comfort with excellent resilience for correct support with engineered 4 holes hollow fibres. Long lasting and comfortable.

Hollofil

COMFOREL®
Tint cluster fibres that emulate Down. The fibres mould perfectly to your head and neck for deep down snug support. Hypo-allergenic.

Comforel

COMFOREL® SUPREME
Extreme softness with very fine supple fibres in ergonomic cluster shape. Unmatched softness.

**Comforel
Supreme**

Features of
NATURAL FILLINGS

GOOSE OR DUCK DOWN
Down in natural clusters is the softest and most comfortable material available. Light weight and re-fluffable with excellent breath ability allowing moisture to be constantly absorbed keeping the sleeper warm and snug.

DOWNYSOF

GOOSE OR DUCK FEATHER
Resilient support with natural fill materials. Contouring capability with conformability to shape.

DOWNYSOF

GOOSE OR DUCK DOWN/FEATHER
Down with the greatest "fill power" is combined with support rendering features. The mix of the two offers regulated weight and durability.
